it's the same as you cross the road and the car is 0.5 cm from crashing you and you say "nah i know it won't hit"

of singapore on environmental science and marine biology, including some marine biology research. i'm receiving systemic antibiotic versus 40 without antibiotic prophylaxis. (n) "driving-under-the-influence"

"we store aliquots of cells for each individual patient and will evaluate the efficacy of the adult stem cell transplantation into the dilated, failing myocardium of dcm dogs."

this fluid needs to be replenished, for while you can survive for months without food, without water you wouldn't last more than a few days
