so to me, jesus, as the man finally died to jesus the christ after this final "test" (whether self-imposed or from the father) on the cross

the benefits of taking that medication so you can potentially avoid a stroke or heart attack outweigh the risk of the medication, so one of my goals would be provide that education to the patient."

was not liable to the patient for failure to warn because those states either applied, or were expected

were waiting, and led on the right to his destination on the rio grande, some eighteen miles southwest, opposite the mexican town of matamoros

but truly, that science really isn't terribly accessible to the non-medically trained
